LIST OF FIGURES

Fig 2.1 Timeline for the development of IEEE 802.11ac Wave-2 13
Fig 2.2 Data Transfer Mechanism with Beamforming 16
Fig 2.3a Channel Sounding - NDPA and NDP 16
Fig 2.3b Channel Sounding - Feedback and Steering Matrices 17
Fig 2.4 Range Improvement due to Transmit Beam Forming 18
Fig 3.1 VPQ System Model 33
Fig 3.2 Functional Example - Adapting the Aggregated Frame 41
Fig 3.3 Resource Allocation using DL-ARBI 43
Fig 3.4 A Heuristic Resource Allocation Algorithm 44
Fig 3.5 ADWISER 46
Fig 3.6 Data Flow in ADWISER 47
Fig 3.7 Proposed QoE-Aware Scheduling Framework 50
Fig 4.1 Throughput vs. MCS; SGI and 20 MHz Bandwidth 76
Fig 4.2 Throughput vs. MCS; Long GI and 20 MHz Bandwidth 77
Fig 4.3 Throughput vs. MCS; SGI and 40 MHz Bandwidth 77
Fig 4.4 Throughput vs. MCS; Long GI and 40 MHz Bandwidth 78
Fig 4.5 Mean Delay vs. MCS, SGI, 20 MHz Bandwidth 78
Fig 4.6 Mean Delay vs. MCS, long GI, 20 MHz Bandwidth 79
Fig 4.7 Mean Delay vs. MCS, SGI, 40 MHz Bandwidth 79
Fig 4.8 Mean Delay vs. MCS, long GI, 40 MHz Bandwidth 80
Fig 4.9 Mean Jitter vs. MCS, short GI, 20 MHz Bandwidth 81
Fig 4.10 Mean Jitter vs. MCS, long GI, 20 MHz Bandwidth 81
Fig 4.11 Mean Jitter vs. MCS for short GI with 40 MHz Bandwidth 82
Fig 4.12 Mean Jitter vs. MCS for long GI with 40 MHz Bandwidth 82
Fig 4.13 Throughput vs. MCS for SGI with 20, 40, 80, 160 MHz Bandwidth 83
Fig 4.14 Throughput vs. MCS for long GI with 20, 40, 80, 160 MHz Bandwidth 83
Fig 4.15 Mean delay vs. MCS for SGI with 20, 40, 80, 160 MHz Bandwidth 84
Fig 4.16 Mean delay vs. MCS for LGI with 20, 40, 80, 160 MHz Bandwidth 84
Fig 4.17 Mean jitter vs. MCS for SGI with 20, 40, 80, 160 MHz Bandwidth 85
Fig 4.18 Mean jitter vs. MCS for long GI with 20, 40, 80, 160 MHz Bandwidth 85
Fig 4.19a 802.11n & 11ac response to Ideal WiFi for 1,2,3,4 SS, 20 MHz CBW 91

Fig 4.19b 802.11n & 11ac response to Ideal WiFi for 1,2,3,4 SS, 40 MHz CBW..... 92

Fig 4.19c 802.11ac response to Ideal WiFi for 1,2,3,4 SS, 80 MHz CBW..... 92

Fig 4.19d 802.11ac response to Ideal Wi-FI for 1,2,3,4 SS, 160 MHz CBW..... 93

Fig 4.20a: 802.11ac & 802.11n Response to 'Minstrel' for 1,2,3,4 SS, 20 MHz CBW 94

Fig 4.20b: 802.11ac & 802.11n Response to 'Minstrel' for 1,2,3,4 SS; 40 MHz CBW 95

Fig 4.20c: 802.11ac Protocol Response to Minstrel; CBW=80 MHz..... 96

Fig 4.20d: 802.11ac Protocol Response to Minstrel; CBW=160 MHz..... 96

Fig 4.21: 802.11ac Response to 'Ideal' RA for 1,2,3,4 SS; 80 MHz CBW under the influence of GI..... 97

Fig 4.22a 802.11ac Response to Minstrel for 1,2,3,4 SS; CBW 20 MHz under the influence of GI..... 98

Fig 4.22b 802.11ac Response to Minstrel for 1,2,3,4 SS; CBW 40 MHz under the influence of GI..... 98

Fig 4.22c 802.11ac Response to Minstrel for 1,2,3,4 SS; CBW 80 MHz under the influence of GI..... 99

Fig 4.22d 802.11ac Response to Minstrel for 1,2,3,4 SS; CBW 160 MHz under the influence of GI..... 99

Fig 4.23a: 802.11n Response to Minstrel for 1,2,3,4 SS; CBW 20 MHz under the influence of GI..... 100

Fig 4.23b: 802.11n Response to Minstrel for 1,2,3,4 SS; CBW 40 MHz under the influence of GI..... 100

Fig 4.24a: 802.11ac Response to Ideal & Minstrel for 1,2,3,4 SS; CBW 20 MHz.. 101

Fig 4.24b: 802.11ac Response to Ideal & Minstrel for 1,2,3,4 SS; CBW 40 MHz.. 102

Fig 4.24c: 802.11ac Response to Ideal & Minstrel for 1,2,3,4 SS; CBW 80 MHz.. 102

Fig 4.24d: 802.11ac Response to Ideal & Minstrel for 1,2,3,4 SS; CBW 160 MHz 103

Fig 4.25a: Observed & selected rates-802.11ac-'Ideal'-1,2,3,4 SS; CBW 20MHz.. 104

Fig 4.25b: Observed & selected rates-802.11ac-'Ideal'-1,2,3,4 SS; CBW 40MHz.. 104

Fig 4.25c: Observed & selected rates-802.11ac-'Ideal'-1,2,3,4 SS; CBW 80 MHz. 105

Fig 4.25d: Observed & selected rates-802.11ac-'Ideal'-1,2,3,4 SS; CBW 160 MHz 105

Fig 4.26a: Observed & selected rates-802.11ac-Minstrel-1,2,3,4 SS;CBW 20MHz 106

Fig 4.26b: Observed & selected rates-802.11ac-Minstrel-1,2,3,4 SS;CBW 40MHz 106

Fig 4.26c: Observed & selected rates-802.11ac-Minstrel-1,2,3,4 SS;CBW 80MHz 107

Fig 4.26d: Observed & selected rates-802.11ac-Minstrel-1,2,3,4 SS;CBW 160MHz *107*

Fig 4.27: Observed & selected rates as standard deviation for 802.11ac Ideal and Minstrel RA *109*
