

ACKNOWLEDGEMENT

This is to express my sincere thanks and gratitude to my internal and external guides for their invaluable support and encouragement in completing my research work

As my area of research dwelled in a non-conventional area, I needed a lot of time to organize my thought and firm-up my course of work. In this journey, I received a lot of support and guidance from Prof Dr Shrihari, Vice-Chancellor of University of Petroleum and Energy Studies, Dr Nihal Anwar Siddiqui, Associate Professor and Head, Environment, Health and Safety Department, University of Petroleum and Energy Studies, without which the work would have not progressed. I am really very grateful to both of them.

My external guide as well as well-wisher Dr R K Elangovan, Deputy Director General, Directorate General of Factory Advice Service and Labour Institutes, has been very kind and spared his valuable time and extended his timely advice for the research work. I am very grateful to him.

My superiors in the great organization Larsen & Toubro, where I have spent nearly 30 years of time, beginning as a trainee, have been very kind in extending the support as and when required. I am grateful to all of them. Some of my colleagues and team members have also extended their support and guidance and made me indebted to them.

Last but not the least, I acknowledge the support and inspiration I received from my family and extended family members, colleagues and friends as well as well-wishers. My parents, my wife Jayati, daughter Adrita and son Srinivas have been very gentle with me while I remain absorbed in my work and not been able to spend enough time with them.

Place: Kolkata
