CASE: 08

BIR SONS.

Bir group is a diversified group with interests in manufacturing, navigation, marine products, exports, hospitals and departmental stores. The group was initiated and expanded under the able Stewardship of Bhai Bir Singh (BBS) – a very hard workingman with a sharp acumen for business.

Till now the style of management has "Hands On" with most of the decision taken by gut feeling and the past experiences. For last quite a time BBS has been quite bugged by the state of his business. Although, the business continues to be quite profitable – the profitability is not up to the expectations.

In the past few meetings with his core-tem of executives, he had shared the same. The entire corporate planning team (CPT) had gone on a brain storming session and concluded that some of the non-profitable businesses were pulling down the overall profitability of the group. Their analysis profiles the group as follows:

Bir group comprises three major divisions, namely –

Bir Industries.

Bir International.

Bir Sons.

Bir Industries has three SBUs under it:

- 1. **Bir Lamps** a profit-making company, is among the major player in the market and commands a 25% market share in terms of value. The over all market is growing at a rapid pace with the boom in automobile sector, and hence requires a considerable amount of investment in the machinery and technology.
- 2. **Bir Machine Tools** a cash rich company market which is leader in its field of cutting tools. Operating in a market with a steady market growth rate of about six percent
- 3. **Bir Tyres-** a minor player in a market crowded by MNC's and big names. The otherwise stagnant market has shown a slight growth in the present year, due to boom in the automobile sector.

Bir International

This division looks after the exports of the group and has two SBUs under it. 1. Bir Marine Products- a small player in a market largely dominated by the unorganized sector. The market is growing rapidly. Simultaneously, the increase in number of players has also shown a tremendous increase. 2. Bir Exports- a star trading house with an excellent international network. The unit is the main source of forex (foreign exchange) for the group. The market is growing at a moderate rate of 9%, making the unit cash rich day by day. Bir sons. The holding company of the group with certain SBUs directly under it. 1. Bir Navigation- a laggard in a market with a very slow growth. Once a major source of income for the group, the unit's profitability has shown a constant decline in the past five years. 2. Bir Hospital & Bir Departmental stores- are the two new ventures of the group. Pioneers in the concept of big industrial houses coming to these areas dominated by unorganized sector. The companies have still to break even, being in the first and second years of their operation. Q8A You have to help Bir Group in their reorganization efforts using Business-Portfolio analysis matrix, plotting each of the business on the graph that the group is having at present based on their characteristics. Q8B You have to help Bir Group in their reorganization efforts using Business-Portfolio analysis matrix, plotting each of the business on the graph that the group is having at present based on their characteristics. Q9A You have to help Bir Group in their reorganization efforts using Business-Portfolio analysis matrix, plotting each of the business on the graph that the group is having at present based on their characteristics. 10 CO2, CO3, CO4 CO3, CO4 CO3, CO4 CO3, CO4 Lustomer estimate, which offer, will deliver the most value.
