SECTION-D (2Qx25M=50 Marks)			
Q12	The state has gradually transformed from a police state to a welfare state. This transition has brought a change in the nature in the role that the state	25	CO4

	has to be play. Does this also necessarily means that the powers and restrictions entrusted/imposed to/on the state should also be revised and redefined. Express your agreement and disagreement with reasoned arguments and also use cases and contemporary events.		
Q 13	Federalism is central to the idea of constitutionalism as it distributes the power between different governments. And it was so pertinent to Indian Model of Constitutionalism that it was mentioned categorically in the Indian Constitution through various provisions and seventh schedule. However certain constitutional concerns have been raised about the change of 'state' to "UT" status of Jammu and Kashmir and have argued that this is against constitutional scheme of federalism as laid down in Indian constitution. Critically analyze these assertions with the help of constitutional and other legal provisions.	25	CO4
