

ACKNOWLEDGEMENT

First of all, I express my deepest gratitude to ‘Almighty God’ for bestowing upon me this divine blessing and giving me inspiration and strength to accomplish the work.

It is with great reverence that, I wish to express my heartfelt indebtedness to my thesis supervisors **John Fitzgerald, Brian Ashcroft, Max Gusenko**, Head of managements and HSE divisions Exterran Eastern Hemisphere, United states and UAE & **Dr. Nihal Anwar Siddiqui**, Asst. Professor & Head, Environment Research Institute, University of Petroleum and Energy Studies, Dehradun, **Dr. Srihari** Professor and Dean – College of engineering studies, UPES , Dehradun, **Dr. Kamal Bansal**, Asst. Professor , UPES, Dehradun for their inspiring guidance , valuable suggestions , constant encouragement and moral support, which were of great help in enabling me to complete this study. I also convey my gratitude to **HSE team members**, PDO, Exterran for allowing me to use lab and library facilities required for this study.

I am also thankful to other Heads of PDO, Exterran for their cooperation and guidance in carrying out studies, providing logistic support and review of the draft copy of the thesis. I am also thankful to the management of Exterran, Shell PDO and Reliance specially my Departmental Head **Mr. Ashwani Prashara, Mr.VK Gandhi, Mr. Anand Pillai, My colleague Dr. Alka Mitra** for their cooperation in facilitating the completion of this study.

Last but not the least, the inspiration provided by my parents, **Mr.Sukumaran Nair** and **Mrs Jagadamma**, support rendered my wife **Lathika sajeev** & motivation by my two sweet daughters **Divya Nair & Vidya Nair** and my whole family memebers has played a key role in completion of this work for which I shall remain indebted to them through out the life.

Sajeev Nair
