

ACKNOWLEDGEMENTS

I express my gratitude to each and every person involved directly or indirectly and supported me to reach the final destination of submitting the PhD dissertation.

At the very first, I would like to express my sincere thanks to my supervisor Dr. Pradeep Srivastava, Scientist 'E', Wadia Institute of Himalayan Geology (WIHG), Dehradun. As a supervisor he constantly motivated me to focus on the goal. He taught the intricacies of subject with a great smiling face in field as well as in lab. His enthusiasm and advice enflamed my research endeavor.

I am also thankful to my internal supervisor Prof Kiran Shanker Misra, Department of Petroleum Engineering and Earth Sciences, University of Petroleum and Energy Studies, for over-arching support.

I would like to thank to Prof Anil K. Gupta, Director, WIHG, for providing me the necessary facilities and infrastructure so that I can work smoothly and patiently.

I am thankful to Department of Science and Technology (DST), Government of India, for providing me international travel grant (SB/ITS-Y/02508/2013-2014, dated 22.07.2013) to present my work at 8th IAG international conference on Geomorphology held at Paris (France), 27-31 August, 2013.

I would like express my sincere gratitude to Drs. A.K. Dubey and Kishor Kumar for patiently checking the earlier version of this thesis and providing valuable suggestions, which shaped it to the final version. Drs. Rohtash Kumar, S.K. Ghosh, Suresh N., and Narender K. Meena are sincerely thanked for discussion on fluvial and aeolian sedimentology, OSL dating, and environmental magnetism related to climate change, indeed it really enhanced my knowledge. I thank Drs. V.C. Thakur, R.J. Perumal, Barun K. Mukherjee, R. Islam, Koushik Sen,

Rajesh Sharma, Raj Kumar Singh (IIT, Bhubaneswar), P.K. Mukherjee, Manish Mehta, Rakesh Bhambri, Amit Kumar Walia, and Parveen Kumar for their valuable advice, comments, and suggestions.

I would like to thank Mr. V.P. Gupta and Sanjeev Kumar of Luminescence Dating Laboratory, Mr. Rakesh Kumar of Paleo-magnetic Laboratory, and Mr. Ajit K. Gupta, Mr. Hari Singh of Sedimentology Laboratory, WIHG, for their help to complete the laboratory analysis. Dr. N.K. Saini, Dr. P.P. Khanna, Mr. Chandershekhar, Mr. Samay Singh, and Mr. Rakesh Kumar are duly acknowledged for providing XRF, XRD and ICP-MS data.

I would like to thank my seniors Drs. Yogesh Ray, Koushick Sen, Irfan Ahmad, Kavita Tripathi, Rakhi Rawat, Naresh Kumar Rana (Garhwal University), and Shivani Pandey for their suggestions and joyful moments. I also thank my colleagues and friends from WIHG Som Dutt, Vinit Kumar, Sourabh Singhal, Suman Lata Rawat, Harshita Joshi (Geological Survey of India), Reetam, Sanjay Negi, Tanuj Shukla, Rupa Ghosh, Pranay Diwate, and Divya Thakur for happy and memorable moments, without their company it was hard to survive. I also thank the Mr. Shyam Singh, driver of WIHG, who made my fieldwork comfortable in rough terrain of Ladakh.

Last but not the least, I thank my father and mother to bring me up to this level of education. I appreciate my brothers Jitender Kumar and Deepak Kumar; Sister Poonam Jaspal for their motivation and support. I heartily thank my wife Mrs. Poonam Panchal, daughter Aradhya, and son Atharva for their untired support and without complaining for late night work.

Finally, I would like to thank every individual who supported me knowingly or unknowingly to complete this PhD dissertation successfully.

(Anil Kumar)
