

## **ACKNOWLEDGEMENTS**

Firstly, I would like to express my sincere gratitude to my Guide Prof. Raju Ganesh Sunder for his continuous support during my Ph.D. study and related research, for his patience, motivation, and immense knowledge. I could not have imagined having a better advisor and mentor for my Ph.D. study. I extend my gratitude to my Co-Guide, Dr. Geo Jos Fernandez and external guide, Dr. Benjamin Boardman for their continuous support during the critical stages of the Ph.D.

Besides my advisors, I would like to thank the respected Faculty Research Committee for their insightful comments during the Synopsis and Abstract presentations. I am appreciative for the hard questions which incited me to widen my research from various perspectives.

I like to thank peers in my organization for their kind support during this research. In a special way, I am appreciative to Mr. Patricio Rivera, Mr. Gordhan Bhatia and Mr. Girolamo Basile for their valuable insights whenever being approached. I am thankful to all those who participated in the survey and interviews conducted as part of the research. The research was possible only with the primary data provided by the survey respondents and interview participants.

I would like to thank my family: my parents (Aloysius & Mala), wife (Judeline), children (Veronica, Magdalene and Zechariah), brother-in-law (Dr. Joseph Pancras) and sister (Divya) for supporting me throughout writing this thesis and my life in general.

Finally I thank my God, my good Father, for guiding me through all the difficulties. I have experienced Your guidance day by day. I believe Your grace and blessings have driven me towards finishing this degree. I will keep trusting You for my future. Thank you, God.
