

Acknowledgements

I take this opportunity to express my humble gratitude to Prof. Anil Kumar Gupta (**Director, Wadia Institute of Himalayan Geology, Dehradun**) for providing me the Wadia Institute Research Fellowship to complete my Ph.D thesis at this premier and esteemed research Institute. My days at the Institute have been a pleasant journey through acquiring and learning the basic and foremost understanding of the Himalayan Geodynamics, which would not have been possible without the sincere guidance, help and wishes from many individuals.

My due regards to my research supervisors **Dr. Sushil Kumar (Scientist 'F', Wadia Institute of Himalayan Geology, Dehradun)**, **Dr. V. M. Tiwari (Director, National Geophysical Research Institute, Hyderabad)** and **Dr. V. L. Narasimhan (University of Petroleum and Energy Studies, Dehradun)**, who provided me with useful guidance in carrying out this work. Their knowledge and motivation went a long way to help me complete this work. My research supervisor **Dr. Sushil Kumar**, is heartily acknowledged for all his sincere efforts throughout my Ph.D research work. He with all his positive approach and sincerity has guided me all through this years for completing this research thesis. **Dr. Sushil Kumar** is greatly acknowledged for the successful operation of the Northwestern Himalaya seismic network of Wadia Institute of Himalayan Geology, Dehradun. The data acquired through this seismic array is utilized for the present work. I am grateful to **Dr. Sushil Kumar (Research Supervisor)** and **Dr. Naresh Kumar** for the pain and trouble they undertook to operate this seismic array in the extremely difficult terrains of the Himalaya. My sincere due regards to my guide **Dr. V. M. Tiwari** for his generous help and earnest guidance during my work at N.G.R.I, Hyderabad. Without his support and guidance I would not have been able to

complete a part of my Ph. D thesis at N.G.R.I., Hyderabad. My deepest appreciation to my guide **Dr. V. L. Narasimhan** for all his necessary and sincere guidance during the Ph.D thesis.

My sincere thanks to **Dr. Narendra Kumar, Dr. Arkoprovo Biswas, Dr. Praveen Chandra Singh, Dr. Arvind Singh, Dr. Praveen Mishra, Dr. Parveen Kumar, Dr. Chavi Pant Pandey, Dr. Ajay Paul, Dr. Naresh Kumar, Dr. Rajesh S., Dr. P.K.R. Gautam, Dr. Dilip Yadav, Dr. Gautam Rawat** and last not the least **Dr. Devajit Hazarika** for their immense help support and encouragement for carrying out my Ph.D thesis at the Wadia Institute of Himalayan Geology, Dehradun. Healthy and fruitful discussions with all these people helped me in improving my research work. I am extremely grateful to **Dr. R. J. Perumal** for his sincere efforts in making me understand the concept of Tectonic subsidence of Indian lithosphere beneath the Eurasian plate. **Dr. Pradeep Srivastava** is greatly acknowledged for his valuable suggestions during the research work. **Dr. Arkoprovo** Biswas is sincerely thankful for all his hard efforts for providing all necessary and fruitful suggestions to improve the present research work. **Ms Shubhasmita Biswal** is greatly acknowledged for all her necessary help and hard work during the Ph.D thesis preparation.

I express deep sense of gratitude to authorities of University of Petroleum and Energy Studies, Dehradun for all their necessary guidance and support to complete this Ph.D thesis.

I am thankful to **Prof. Jean-Philippe Avouac (CALTECH, U.S.A.), Prof. Peter Molnar (University of Colorado at Boulder, U.S.A.) Dr. N. Purnachandra Rao (NGRI, Hyderabad), Dr. M. Ravi Kumar (ISR, Gandhinagar), Dr. Sanjay Kumar Prajapati (MOES, New Delhi), Dr. D. Shashidhar (NGRI, Hyderabad), Dr. Chandra Prakash Dubey (NCESS, Thiruvananthapuram)** for scientific discussion and encouragement during the course of various interaction sessions with them.

Majority of the results presented and described in this Ph.D thesis would not have been possible without the fruitful guidance of **Dr. Sanjay Kumar Prajapati** of MOES, **Dr. N. Purnachandra Rao, Dr. D. Shashidhar, Mrs K. Mallika** of NGRI and **Dr. Chandra Prakash Dubey** of NCESS.

The **ARAC** (Academic advisory committee), WIHG is greatly acknowledged for all their necessary advise and suggestions during the research work at WIHG, Dehradun.

My Fellow Colleagues at Wadia Institute of Himalayan Geology **Sh. Arjun Pandey, Sh. Ishwar Singh, Sh.Rajeeb Lochan Mishra, Sh. Sanjay Kumar Negi, Sh. Rakesh Singh, Sh. Arun Prasath R., Ms Monika Wadhawan, Sh. Satya Kumar and Sh. Radheyshayam Yadav (NGRI Hyderabad)** are greatly accredited for all their fruitful help during my Ph.D at Wadia Institute of Himalayan Geology, Dehradun.

Shri. R.S. Negi is highly acknowledged for the support and encouragement during Ph. D research work carried out at Wadia Institute of Himalayan Geology, Dehradun. **Mr. Tarun Jain** is acknowledged for his help in redrawing some of the figures for the Ph. D thesis. All other supporting staff of the Geophysics Group and the Institute is acknowledged for their help in data collection in very tough conditions in the Himalaya.

Mahesh Prasad Parija
