

## **ACKNOWLEDGEMENTS**

At the outset let me express my gratitude towards the almighty for giving me the motivation and providing me mental and physical strength to carry out the project work in time

I would like to thank the Dean, Dr (Prof) Kamal Bansal, for his constant guidance and help for a complacent of the current work.

The constant beacon of light and the edifice of the ideas has been Dr Devender Kumar Saini. He has been a great source motivation throughout the work.

I wish to express my deep gratitude to my project external guide Dr. I P S Paul for his constant guidance, encouragement and support. I warmly acknowledge and express my special thanks for his inspiring discussions and infallible suggestions.

I would not forget to thank N B Soni for his constant motivation and help. I would also like to thank all other faculty members who have helped during this project work.

I would be failing in my duties if I don't thank my friends Rohit Dawra, Punit Gupta, Khurshid Alam, S K Batra, Raj Roshan for their exceptional support without asking for it.

Further I would like to express his deepest gratitude to Mr Sonjiv Banerji & Mrs Anjuli Chandra for teaching me the essential knowledge (basic) of grounding. Also I want to thank Shiv Kumar Mandal, Jitender Kumar, M K Chaudhary, Dinesh Singh, Manish Garg for giving me support and help.

High appreciation is given to Mr Hitesh Kumar for his invaluable advice.

Finally the author would like to thank Mrs Krishna Arora for her blessings and Mrs Poonam Arora & Master Divyanshu Arora for their unflinching support in this work.
