Abstract	i
List of Figure.....	vii
List of Tables	xi
Definitions	xiii
Abbreviations	xxi
Nomenclature used.....	xxii
Chp-1 Introduction & Literature Review	1
1.1 Introduction	1
1.2 Relevance for Designing with Multi-layered Soil Model In India	1
1.3 Literature Review	2
1.4 Inference Drawn from Literature	9
1.5 Objective of the Research.....	9
1.6 Methodology.....	10
1.7 Flow Chart	11
1.8 Procedure and Methods of Resistivity Measurement	12
1.9 Thesis Organization	17
Chp-2 Basics of Grounding & Grounding Design	20
2.1 Grounding	21
2.2 Accidental Ground Current	22
2.3 Equivalent Circuit for Accident in Substation	23
2.4 Concept of GPR & Dangerous Voltage in Substation	28
2.5 Fault Current & Maximum Grid Current	30
2.6 Step & Touch Potential	33
2.7 Different Parts of Grounding System	36

2.8	Need of GIS	37
2.9	Difference of Grounding in AIS & GIS	38
2.10	Enclosures Induced Currents	40
2.11	Grounding of GIS Structures and Enclosures	41
2.12	Grounding of foundations of GIS	42
2.13	Some further Considerations.....	43
Chp-3	Soil Resistivity & Soil Modeling	45
3.1	Concept of Soil Resistivity	45
3.2	Different Soil Models	47
3.3	Various Resistances of an Earth Electrode	48
3.4	Derivation of Soil Model of Substation(Two layer Soil Resistivity Structure).....	50
3.5	Designing of Grounding System - 220/33KV GIS (Uniform Layer Soil Model)	52
3.6	Example of Two layer soil Resistivity Modeling	59
3.7	Case Studies of Soil Modeling	63
3.8	Results & Comparison	70
Chp-4	Empirical Formulas for Two Layer Modeling & Scale Model.....	72
4.1	Empirical formulas to Calculate Parameters of Design of Grounding System in Two Layer Soil Model.....	72
4.2	Example / Case studies for Designing of Grounding System.....	75
4.3	Results.....	88
4.4	Experiment for Single / Uniform Layer Soil Model and Two Layer Soil Model	90
4.5	Results of Uniform Layer Model.....	96
4.6	Results of Two Layer Soil Models	99
4.7	Conclusion.....	102

Chp-5 Parametric Analysis	104
5.1 Factor affecting the Design	104
5.2 Case Study for Parametric Analysis.....	106
5.3 Uniform Vs. Two Layers Soil Model.....	112
5.4 Conclusion	115
Chp-6 Conclusion & Future Scope of Work	116
6.1 Summary of Work Done	116
6.2 Conclusion (Findings of Work)	117
6.3 Future Scope of Work	119
References	120
List of Publication	127
Resume of Scholar	128
