

ACKNOWLEDGEMENTS

Foremost, I wish to express my heartfelt gratitude to my Internal Guide, Professor Dr.D.K.Gupta without whose guidance, patience and support, would not have made me to overcome the obstacles that I faced through the journey of my Ph.D. work. He is the best supervisor one could ever have. His valuable knowledge, continuous assistance and comments have inspired me to shape my research ideas and interests. I am grateful for his persistent encouragement that has made me to pursue my studies at difficult times. I had a good learning exercise with him, which will be with me throughout my life.

To my Internal Co-Guide, Dr. Pushpa Sharma, Professor, I would like to extend my heartfelt gratitude for each and every lesson I have learned in this work. From the starting day, you have guided me, welcome and paid much more attention to all I have to ask or say related to the research; whatever small that may be. I have felt your supports, patience and care for me throughout the research so that I can try to give the best of me, in the middle of all odds. You are always available for me; all these are enough for me to be grateful to you.

I would like to extend my special thanks to my External Guide, Professor, Dr B. P. Pandey, for his valuable advice, encouragement and sharing his vast knowledge about reservoir engineering and simulation.

I take this occasion to thank the management of University of Petroleum and Energy Studies, for providing me this golden opportunity for doing my research work. I particularly offer my deepest regards and sincere thanks to Dr. S.J.Chopra, Chancellor, Dr. Shrihari, Vice Chancellor, and Dr. Kamal Bansal, Dean, College of Engineering for providing me facilities, valuable suggestions and constant motivation during my research work. Special thanks to Dr S.K.Gupta, Dr.S.K.Nanda, Dr.R.P.Soni Dr. Parichay Kumar Das, Dr.Ashutosh Pandey and Dr. Vijay Parthasarthy, for their valuable comments and suggestions provided during my abstract presentation.

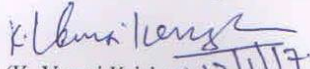

I also thank all faculty members of Department of Petroleum Engineering and Earth Sciences, UPES, Dehradun for their help.

I am grateful to my *Parents*- for all their patience, support and sacrifice throughout the time period. You have always allowed me to work freely, without any worry over anything,

always adjusting with my schedule so that my work goes on smoothly. Without your sacrifice, I was not able to do what I have already done.

I am emotionally thankful to my wife Sandhya Rani and daughter Kirthika Rani for his constant encouragement and immense moral support during my Ph.D. work.

I am thankful to all those people who helped me directly or indirectly during the period of my Research work.

(K. Vamsi Krishna) 12/11/17
