

<b>Name:</b>	
<b>Enrolment No:</b>	

**UNIVERSITY OF PETROLEUM AND ENERGY STUDIES**  
**End Semester Examination, May 2022**

**Course:** Construction Management Practices  
**Program:** M.Tech, Structure Engg. , Civil Engg  
**Course Code:** CIVL 7017  
**Pages:** 05  
**Instructions:** All questions are compulsory

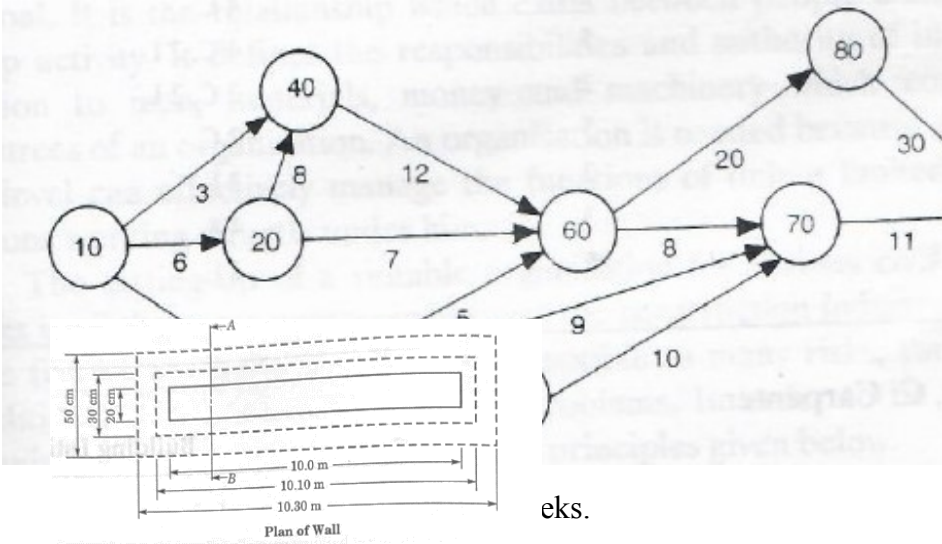

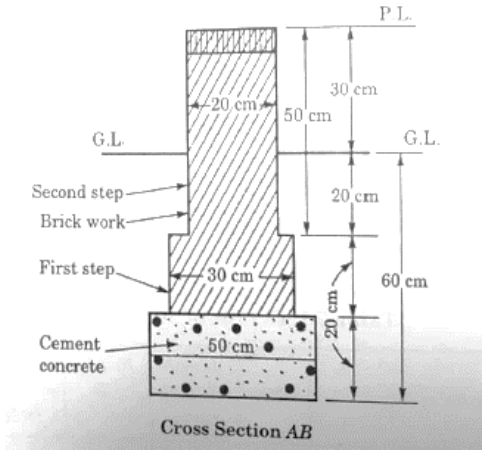

**Semester:** II  
**Time** 03 hrs.  
**Max. Marks:** 100

**SECTION A**

S. No.		Marks	CO																																										
Q 1	Why construction industry is	4	CO1																																										
Q 2	Define the various phases of construction project management in brief.	4	CO4																																										
Q 3	Define the contract & tender? What are processes from tendering to contract.	4	CO3																																										
Q 4	What is rate analysis in construction project & what are various factors affects it?	4	CO5																																										
Q 5	Draw the network diagram for the following activities of a construction project	4	CO2																																										
<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 15%;">Activity</th> <th style="width: 15%;">Predecessor Activity</th> <th style="width: 15%;">Duration (Days)</th> <th style="width: 15%;">Activity</th> <th style="width: 15%;">Predecessor Activity</th> <th style="width: 15%;">Duration (Days)</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">A</td> <td style="text-align: center;">-</td> <td style="text-align: center;">13</td> <td style="text-align: center;">G</td> <td style="text-align: center;">D, F</td> <td style="text-align: center;">8</td> </tr> <tr> <td style="text-align: center;">B</td> <td style="text-align: center;">A</td> <td style="text-align: center;">8</td> <td style="text-align: center;">H</td> <td style="text-align: center;">E</td> <td style="text-align: center;">6</td> </tr> <tr> <td style="text-align: center;">C</td> <td style="text-align: center;">B</td> <td style="text-align: center;">10</td> <td style="text-align: center;">I</td> <td style="text-align: center;">H</td> <td style="text-align: center;">7</td> </tr> <tr> <td style="text-align: center;">D</td> <td style="text-align: center;">C</td> <td style="text-align: center;">9</td> <td style="text-align: center;">J</td> <td style="text-align: center;">G, I</td> <td style="text-align: center;">14</td> </tr> <tr> <td style="text-align: center;">E</td> <td style="text-align: center;">B</td> <td style="text-align: center;">11</td> <td style="text-align: center;">K</td> <td style="text-align: center;">J</td> <td style="text-align: center;">18</td> </tr> <tr> <td style="text-align: center;">F</td> <td style="text-align: center;">E</td> <td style="text-align: center;">10</td> <td></td> <td></td> <td></td> </tr> </tbody> </table>				Activity	Predecessor Activity	Duration (Days)	Activity	Predecessor Activity	Duration (Days)	A	-	13	G	D, F	8	B	A	8	H	E	6	C	B	10	I	H	7	D	C	9	J	G, I	14	E	B	11	K	J	18	F	E	10			
Activity	Predecessor Activity			Duration (Days)	Activity	Predecessor Activity	Duration (Days)																																						
A	-			13	G	D, F	8																																						
B	A			8	H	E	6																																						
C	B			10	I	H	7																																						
D	C			9	J	G, I	14																																						
E	B			11	K	J	18																																						
F	E	10																																											

**SECTION B**

Q 6	In construction industry, list down various types of contract generally used? Explain difference in PPP Contract and Lumpsum contract. OR	10	CO3
-----	--	----	-----

	Define Project management for construction project? What are various phases of project management? Define all phases in brief.		
Q 7	<p>Analyze the Construction project shown below</p>  <p>eks.</p> <p>Find (1) critical Path (2) completion time of Project (3) All Float of activities</p>	10	CO2
Q 8	<p>Calculate Quantities of following items for below wall</p> <p>1. Earth work    2. Cement Concrete    3. Brickwork</p>  <p>Cross Section AB</p>	10	CO5
Q 9	<p>Define Project management for construction project? What are various phases of project management? Define all phases in brief.</p> <p style="text-align: center;"><b>OR</b></p> <p>Would you be a project manager of construction project, which are various accounts for construction Project failure?</p>	10	CO1
<b>SECTION-C</b>			
Q 10	Calculate the quantity of earth work for the road, partly in cutting &	20	CO5

partly in filling, from the longitudinal section given below. Side slopes in cutting & filling are 1 in 1 (1:1). The formation width is 10.00 metre. Formation Slop is 1 in 100 fall

Depth of cutting (m)	0.00	5.00	4.00	-	-	-	1.00
Height of filling (m)	-	-	-	1.00	2.50	3.00	-
Formation Level (m)	220.00	219.00	218.00	217.00	216.00	215.00	214.00
N. S. L (m)	220.00	224.00	222.00	216.00	213.00	212.00	215.00
R. D. (m)	0	100	200	300	400	500	600

NSL- Natural Soil Level

R. D. – Road Chainage

Q 11

For the below mentioned network assume that, after working 15 days on the project, the following conditions exist:

- Activities 1-2, 1-3, & 1-4 are completed as originally planned
- Activity 2-4 is in process & will be completed in 3 more days
- Activity 3-6 is in process and will need 18 more days for completion
- Activity 6-7 appears to present some problem & its new estimated time of completion is 12 days
- Activity 6-8 can be completed in 5 days instead of originally planned 7 days

Formulate a new project based on the assessment at the end of 15 days. Including all activities in the new project.

**OR**

A Project consists of 7 activities, whose time estimate and manpower

**20**

**CO2**

requirement are indicated below:

<b>Activity</b>	1-2	1-3	2-3	2-4	3-5	4-5
<b>Duration (days)</b>	2	4	8	5	7	2
<b>Manpower Bar- Benders (B)</b>	2	-	6	3	2	1

Do resource smoothing & show the same by drawing Histogram for Bar-benders.
