List of Tables

Table 2.1: 20 largest losses -1972 – 2011 (Source: Marsh, 2011).....	28
Table 2.2: Review of major incidents – cause and impact analysis.....	31
Table 2.3: Definitions of barrier performance parameters from literature review.....	37
Table 2.4: Model / techniques (Barrier evaluation techniques and risk models) evolved based on Safety II theory.....	77
Table 4.1: Safety barrier performance parameters - expert interview additions	93
Table 4.2: Rotated Component Matrix for 25 variables after 23 iterations	98
Table 4.3: Factors influence safety barrier performance for onshore gas drilling operations	100
Table 4.4: Comparison of the selected drilling Assets	106
Table 4.5: Review of MAHs from 3 onshore gas drilling assets	108
Table 4.6: Decomposition of MAHs into Threats and Consequences.....	116
Table 4.7: Threat and consequence barrier types.....	121
Table 4.8: Summary of barrier effectiveness - threat and consequence	125
Table 4.9: Summary of scores - Model feedback and validation workshop..	129

List of Figures

Figure 1.1: Occupational safety performance - company annual reports (Source: Pitblado, R, 2011).....	17
Figure 1.2: Process safety losses – 5-year period (Source: Marsh, 2011)	18
Figure 1.3: Energy Model (Haddon, 1980).....	19
Figure 2.1: Sector wide property loss	29
Figure 2.2: Typical onshore drilling plot (Abu Dhabi Gas Development Company Limited, 2015, p. 19).....	41
Figure 2.3: Swiss cheese framework (IAOGP, 2008).....	44
Figure 2.4: Typical Bow-Tie (original visual adapted from RasGas Company Limited, 2013 & Pitblado and Nelson, 2013).....	44

Figure 2.5: Barrier classification (Sklet, 2006).....	46
Figure 2.6: Barrier ineffectiveness categories (Trost and Nertney, 1995).....	48
Figure 2.7: Structural elements of the safety management organization across the barrier lifecycle (Andersen et al, 2004)	53
Figure 2.8: Example safety objective tree (Pitblado & Nelson, 2013).....	57
Figure 2.9: Conversion of operation to an incident Bow-Tie (Pitblado & Fisher, 2010)	58
Figure 2.10: Barrier Analysis - DNV BSCAT method (Pitblado & Fisher, 2010).....	59
Figure 2.11: Schematic BBN Model (Adaptation) (Ale et al, 2014).....	60
Figure 2.12: Two time intervals of the dynamic risk model.....	61
Figure 2.13: Fault Tree for a selected safety barrier (Sklet et al., 2006)	64
Figure 2.14: LOPA ratio (Harbawi et al, 2010).....	67
Figure 2.15: 4 staged process - characterization of barrier performance (Landucci et al.,2015)	67
Figure 2.16: The Six Step Process (The International Association of Oil and Gas Producers, 2011).....	70
Figure 2.17: Comparison of Safety I and II theories along with the key elements	76
Figure 3.1: Objective 1 goal and method.....	83
Figure 3.2: Detailed steps for study execution.....	84
Figure 3.3: Objective 2 goal and method.....	85
Figure 3.4: Typical Bow-Tie.....	86
Figure 3.5: Transformation of Bow-Ties to incident Bow-Ties (Source: Pitblado & Fischer, 2010).....	86
Figure 3.6: Relationship based Bayesian Network diagram.....	87
Figure 3.7: Mapping algorithm from Bow-Tie to Bayesian Network	87
Figure 3.8: Illustrative transformation of Bow-Tie Model to relationship based Bayesian Network for an accidental gasoline release scenario	88
Figure 4.1: Transformation of full Bow-Tie to an incident Bow-Tie.....	118
Figure 4.2: Static Bow-Tie for a threat in the drilling Bow-Tie.....	122
Figure 4.3: Transformed Bayesian Network – threat line.....	123
Figure 4.4: Static Bow-Tie for a consequence in the drilling Bow-Tie.....	123

Figure 4.5: Transformed Bayesian Network – consequence line	123
Figure 4.6: Mapping of IR, MR and AR in ADNOC’s semi-quantitative risk matrix (personnel).....	126
Figure 4.7: Mapping of IR, MR and AR in ADNOC’s semi-quantitative risk matrix (assets).....	127

List of Chapters

Contents	6
List of Tables	6
1. Introduction	17
2. Literature Review	25
2.1 Significance of Evaluating Barrier Effectiveness	27
2.2 Barrier Performance Parameters Cross-Industry Review	34
2.3 Available Models for Evaluating Barrier Effectiveness	42
2.4 Evaluating Barrier Effectiveness Approaches.....	47
2.5 Theoretical Underpinning	75
3 Research Design	80
3.1 Need for Further Study.....	80
3.2 Research Problem.....	80
3.3 Research Questions	81
3.4 Research Objectives	81
3.5 Research Methodology.....	81
4 Analysis and Results.....	90
4.1 Objective 1	90
4.2 Objective 2	103
5 Conclusions, Recommendations, Theoretical Contribution and Future Work	131
5.1 Conclusions	131
5.2 Limitations.....	135
5.3 Recommendations	136
5.4 Theoretical Contributions of Research.....	136
5.5 Implications for Future Work.....	140
6 References	143
