

List of Tables

2.1	DDoS Attack Types and Tools	35.
2.2	Summary of DDoS Attack Mechanism	45.
2.3	Comparing DDoS Mitigation Defense Mechanisms	49.
3.1	Respondent Roles	52.
3.2	Respondent Organizations	52.
6.1	Algorithmic representation of DDoS attack mitigation	86.
6.2	Requirements for Single Tier infrastructure	87.
6.3	Requirements for Network Defense Tier infrastructure	91.
6.4	Requirements for Application Defense Tier infrastructure	93.
6.5	Requirements for Access Tier infrastructure	95.
7.1	T-Test Validation parameters	100.
7.2	Average ICMP for Single Tier and Three Tier	101.
7.3	T-Test Summary for Average ICMP	101.
7.4	T-Test for Two Paired Single Tier and Three Tier data	101.
7.5	Page Load Response for Single Tiers and Three Tier	102.
7.6	T-Test Summary for Page Load Response	102.
7.7	T-Test for Two Paired Single Tier and Three Tier Data	102.
7.8	Browser Throughput for Single Tier and Three Tier	103.
7.9	T-Test Summary for Browser Throughput	103.
7.10	T-Test for Two Paired Single Tier and Three Tier Data	103.
7.11	Application Server Response for Single Tier and Three Tier	104.
7.12	T-Test Summary for Application Server Response	104.
7.13	T-Test for Two Paired Single Tier and Three Tiers Data	104.
8.1	Known Attacks in Cloud Computing Infrastructure	108.
8.2	Cloud Computing Categories and Target Areas	110.
